PROJECT SHEET

Cairns & Barcaldine Regions

Project Overview

St George Project Services were engaged to assist the Department of Transport and Main Roads in the road network assessments associated with damage caused by Cyclone Yasi. These works included the engineering services of travelling large sections of their remote road network, and assessing and recording damage using Trimble data loggers, video analysis and compilation of damage sustained to inspected sections of road, and compilation of assessment reports including appropriate treatment types.

CLIENT Department of Transport and Main Roads

CLIENT CONTACT -

LOCATION Cairns & Barcaldine Regions
QLD

CONTRACT TYPE Various

VALUE \$300 Million

ROLES PROVIDED Senior Site Inspector
